Will Be There on November

### CONTRACT SIGNED WEDNESDAY

Hopkinsville, Ky., Oct. 26.—The business men of Hopkinsville today signed contracts for an aviation meet at Mercer Park next week. ### "MADE-TO-ORDER" COAL MINE EXPLOSION

Government's Experimental Plant Is  
Wrecked By Design

Pittsburg, Pa., Oct. 24.—The experimental coal mine of the United States Bureau of Mines at Bruceton, Pa., just outside of this city, was wrecked to-night by an explosion of coal dust fired by black powder touched off as an experiment. Mine engineers and coal operators who went to Bruceton to witness the test said they saw one of the most remarkable sights in their lives.

While no persons were injured several had narrow escapes. The village of Wallace, two miles from Bruceton felt the explosion. Windows were broken and the electric light plant was put out of commission.

The explosion while "made-to-order" was a huge surprise. The force of the upheaval was a revelation. Hundreds of cement bags weighing forty pounds each were hurled from the mine mouth with the force of a bullet and landed three to four hundred feet away.

The roof was blown off the fan house while a mine car at one of the openings to the mine was sent flying across a creek and embedded itself in a hillside. Flames shot forty feet from the mine's mouth and large pieces of concrete were thrown great distances away.

Chronic rheumatism contracts the muscles, distorts the joints and undermines the strength. A powerful penetrating and relieving remedy will be found in Ballard's Snow Liniment. It restores strength and suppleness to the aching limbs. Price 25c, 50c and \$1.00 per bottle. Sold by St. Bernard Mining Co. Incorporated, Drug Department.

His friends and The Bee wish him a quick recovery.
